Subject Index

Amniotic band syndrome, serial evaluations of perinatal uterine synechiae versus amniotic bands, 51
Amniotic bands, serial evaluations of perinatal uterine synechiae versus amniotic bands, 51
Anemia, middle cerebral artery Doppler used to detect fetal anemia, 94
Appendicitis, appearance on transvaginal sonography, 426
Appendix, sonographic detection of the normal appendix: does the combination of real-time spatial compounding and tissue harmonic imaging make a difference?, 326
Arterial evaluation, practical arterial evaluation of the lower extremity, 5
Arteriovenous fistula, arteriovenous fistula of the breast, 57
Autosomal recessive disorder, role of ultrasound in the diagnosis of Fryns syndrome, 42

Bibliography, provenance of ideas: constructing a scientific bibliography, 20
Biopsy, heterotopic thyroid, 120
Brachydactyly, familial autosomal dominant brachydactyly using 3D surface rendering and multiplanar reconstruction, 116

Cardiac resynchronization therapy, sonographic characteristics of a dilated cardiomyopathy pre– and post–cardiac resynchronization therapy, 37
Cardiomyopathy, sonographic characteristics of a dilated cardiomyopathy pre– and post–cardiac resynchronization therapy, 37
Case studies
- acute appendicitis: appearance on transvaginal sonography, 426
- arteriovenous fistula of the breast, 57
- asymptomatic giant right coronary artery aneurysm mimicking a mass of the right atrium, 414
- congenital hepatic arteriovenous malformation: sonographic findings and clinical implications, 177
- congenital malformations: diabetic embryopathy versus trisomy 13, 124
- familial autosomal dominant brachydactyly using 3D surface rendering and multiplanar reconstruction, 116
- fetal ovarian cyst, 431
- first-trimester sonographic signs of trisomy, 13, 260
- gallbladder carcinoma with the unusual occurrence of squamous cell carcinoma, 347
- gallbladder hydrops, 256
- heterotopic thyroid, 120
- intratesticular varicocele concomitant with spermatocele, 440
- large isolated fetal pericardial effusion with spontaneous resolution, 194
- monochorionic/monoamniotic twin ectopic pregnancy, 62
- polycystic liver disease, 182
- post–myocardial infarction ventricular septal defect, 46
- pre-Paget-Schroetter syndrome, 112
- prenatal diagnosis of neuroblastoma: color Doppler imaging may increase accuracy, 134
- prenatal and postnatal imaging findings of congenital adrenal neuroblastoma, 138
- prenatal sonographic detection of uterine dehiscence, 418
- prolapsed, ectopic cecoureterocele, 436
- role of ultrasound in the diagnosis of Fryns syndrome, 42
- sacrococcygeal teratoma, 351
- serial evaluations of perinatal uterine synechiae versus amniotic bands, 51
- sonographic characteristics of a dilated cardiomyopathy pre– and post–cardiac resynchronization therapy, 37
- sonographic evaluation of Niemann-Pick disease type C, 198
- testicular epidermoid cysts: the "bow tie" pattern of laminated tumors, 162
- tumor masquerading as a portal vein thrombosis, 188
- ultrasonography of a gastroduodenal artery pseudoaneurysm, 168
- uterus didelphys and pregnancy, 131

Cerebral artery, horizontal angle of the middle cerebral artery from the middle TCD temporal window, 16
Citation, provenance of ideas: constructing a scientific bibliography, 20
Computed tomography, horizontal angle of the middle cerebral artery from the middle TCD temporal window, 16
Congenital adrenal neuroblastoma, prenatal and postnatal imaging findings of congenital adrenal neuroblastoma, 138
Congestive heart failure, sonographic characteristics of a dilated cardiomyopathy pre– and post–cardiac resynchronization therapy, 37
Coronary artery aneurysm, asymptomatic giant right coronary artery aneurysm mimicking a mass of the right atrium, 414

Corpus luteum, role of ultrasonography and color Doppler in identification of the corpus luteum of early pregnancy, 341
Craniofacial abnormalities, role of ultrasound in the diagnosis of Fryns syndrome, 42
Critical thinking, scientific method as a framework for critical thinking in diagnostic medical sonography, 202

Diabetes mellitus, congenital malformations: diabetic embryopathy versus trisomy, 13, 124
Diagnostic challenges, 355
Diaphragmatic hernia, role of ultrasound in the diagnosis of Fryns syndrome, 42
Doppler, middle cerebral artery Doppler used to detect fetal anemia, 94
Doppler imaging
  prenatal diagnosis of neuroblastoma: color Doppler imaging may increase accuracy, 134
  role of ultrasonography and color Doppler in identification of the corpus luteum of early pregnancy, 341
  tumor masquerading as a portal vein thrombosis, 188
  ultrasonography of a gastroduodenal artery pseudoaneurysm, 168

Echocardiography
  asymptomatic giant right coronary artery aneurysm mimicking a mass of the right atrium, 414
  echocardiographic assessment of left ventricular structure in hypertension and the impact on clinical outcomes, 304
Ectopic ureterocele, prolapsed, ectopic cecoureterocele, 436
Education
  accreditation of sonography programs: building a house of cards, 144
  advancement of higher education in sonography: is distance education the answer?, 102
  beyond the page: creating a 3D understanding of a 2D image, 147
  copyright law and distance education, 277
  focus for instructional design: considering the needs of a distance learner, 208
  scientific method as a framework for critical thinking in diagnostic medical sonography, 202
  sonography clinical education, student's perspective, 356
  strategies for eliminating the sonographer shortage recruitment, retention, and educational perspectives, 408
  thinking of using SCAN in your program?, 270
  what you don't know can't help you, 265
Embolization, giant hemangioma, 422

Epidermoid cyst, testicular epidermoid cysts: the "bow tie" pattern of laminated tumors, 162

Fetal neuroblastoma, prenatal diagnosis of neuroblastoma: color Doppler imaging may increase accuracy, 134
Fetal ovarian cyst, 431
Fryns syndrome, role of ultrasound in the diagnosis of Fryns syndrome, 42

Gallbladder
  gallbladder carcinoma with the unusual occurrence of squamous cell carcinoma, 347
  gallbladder hydrops, 256
Gastroduodenal, ultrasonography of a gastroduodenal artery pseudoaneurysm, 168
Gastroschisis, sonographic signs of midgut malformations due to ventral wall defects, 246
Gottesfeld Award winners, 3

Health care facilities, sonography facilities' accommodation of obese patients, 337
Heart, use of sonography to diagnose heart arrhythmias in the fetus, 155
Hemangioma, giant hemangioma, 422
Hepatic arteriovenous malformation, congenital hepatic arteriovenous malformation: sonographic findings and clinical implications, 177
Hepatocellular carcinoma, tumor masquerading as a portal vein thrombosis, 188
Hypertension, echocardiographic assessment of left ventricular structure in hypertension and the impact on clinical outcomes, 304

Iatrogenic arteriovenous fistulae, arteriovenous fistula of the breast, 57
Intratesticular, intratesticular varicocele concomitant with spermatocele, 440

Letters to Editor, 1
Liver, polycystic liver disease, 182
Lower extremities, practical arterial evaluation of the lower extremity, 5

Medical ethics, historical foundation of the SDMS code of ethics, 238
Mentors, in praise of, 65
Middle cerebral artery
  horizontal angle of the middle cerebral artery from the middle TCD temporal window, 16
  middle cerebral artery Doppler used to detect fetal anemia, 94
Monoamniotic, monochorionic/monoamniotic twin ectopic pregnancy, 62

MSDs, sonographic analysis: normal variability of muscle and tendon of the shoulder in response to daily activity and exercise, 25
Mullerian duct anomalies, uterus didelphys and pregnancy, 131
Muscle measurement, sonographic analysis: normal variability of muscle and tendon of the shoulder in response to daily activity and exercise, 25
Musculoskeletal injuries, nature, cause, and extent of occupational musculoskeletal injuries among sonographers recommendations for treatment and prevention, 317
Myocardial infarction, post–myocardial infarction ventricular septal defect, 46

Neural-tube defects, spina bifida: a review of the importance of sonography's role in its detection, 227
Niemann-Pick disease, sonographic evaluation of Niemann-Pick disease type C, 198
Nuchal translucency, first-trimester sonographic signs of trisomy 13, 260

Obesity, sonography facilities' accommodation of obese patients, 337
Obstetric sonography, that's entertainment?, 444
Omphalocele, sonographic signs of midgut malformations due to ventral wall defects, 246

Paget-Schroetter syndrome, case study of pre-, 112
Pain, work-related musculoskeletal disorders in sonographers, 85
Peak systolic velocities, middle cerebral artery Doppler used to detect fetal anemia, 94
Pericardial effusion, large isolated fetal pericardial effusion with spontaneous resolution, 194
Pregnancy
  monochorionic/monoamniotic twin ectopic pregnancy, 62
  role of ultrasonography and color Doppler in identification of the corpus luteum of early pregnancy, 341
  uterus didelphys and, 131
Prenatal
  large isolated fetal pericardial effusion with spontaneous resolution, 194
  middle cerebral artery Doppler used to detect fetal anemia, 94
  prenatal diagnosis of neuroblastoma: color Doppler imaging may increase accuracy, 134
  prenatal and postnatal imaging findings of congenital adrenal neuroblastoma, 138
  sonographic detection of uterine dehiscence, 418
  use of sonography to diagnose heart arrhythmias in the fetus, 155
Professional standards, advancement of higher education in sonography: is distance education the answer?, 102
Prostate cancer, prospective observational study to assess value of prostate cancer diagnostic methods, 383
Pseudoaneurysm, ultrasonography of a gastroduodenal artery pseudoaneurysm, 168
PVC, use of sonography to diagnose heart arrhythmias in the fetus, 155
